June 13, 2020, 27, July 3, 2024  
**Notice of Foreclosure by Advertisement**  
Notice is given under section 3212 of the revised judicature act of 1961, 1961 PA 236, MCL 600.3212, that the following mortgage will be foreclosed by a sale of the mortgaged premises, or some part of them, at a public auction sale to the highest bidder for cash or cashier's check at the place of holding the circuit court in Gogebic County, starting promptly at 10:00 AM, on July 19, 2024. The amount due on the mortgage may be greater on the day of sale. Placing the highest bid at the sale does not automatically entitle the purchaser to free and clear ownership of the property. A potential purchaser is encouraged to contact the county register of deeds office or a title insurance company, either of which may charge a fee for this information: Name(s) of the mortgagor(s): John C. Berghorn, a single person aka John Berghorn Original Mortgagee: Wells Fargo Bank, N.A. Foreclosing Assignee (if any): CSMC 2021-RPL6 Trust Date of Mortgage: December 29, 2010 Date of Mortgage Recording: January 7, 2011 Amount claimed due on date of notice: \$122,734.05 Description of the mortgaged premises: Situated in Charter Township of Ironwood, Gogebic County, Michigan, and described as: All that part of the Southeast 1/4 of Northwest 1/4, Section 15, Township 47 North, Range 47 West, more particularly described as follows: Commencing at a point 230 feet South of an iron pin on the North line of the said Southeast 1/4 of Northwest 1/4, said pin being 314.4 feet West of the Northeast corner of said Southeast 1/4 of Northwest 1/4; thence South, parallel to the North-South center line of said Section 15, 130 feet to an iron pin; thence West at right angles to the last described line, 301.5 feet to the West line of Douglas Boulevard; thence North 7.2 feet; thence North 29 degrees 40 minutes East, 141.2 feet; thence East 231.6 feet to the point of beginning. Common street address (if any): N10414 Mount Zion Dr, Ironwood, MI 49938-1259 The redemption period shall be 6 months from the date of such sale.

### Legals

unless determined abandoned in accordance with MCL 600.3241a; or, if the subject real property is used for agricultural purposes as defined by MCL 600.3240(16). If the property is sold at foreclosure sale under Chapter 32 of the Revised Judicature Act of 1961, pursuant to MCL 600.3278 the borrower will be held responsible to the person who buys the property at the mortgage foreclosure sale or to the mortgage holder for damaging the property during the redemption period. Attention homeowner: If you are a military service member on active duty, if your period of active duty has concluded less than 90 days ago, or if you have been ordered to active duty, please contact the attorney for the party foreclosing the mortgage at the telephone number stated in this notice. This notice is from a debt collector. Date of notice: June 13, 2024 Trott Law, P.C. 31440 Northwestern Hwy, Suite 145 Farmington Hills, MI 48334 (248) 642-2515 1532400 (06-13)(07-04)

## Ask The Doctors

by Elizabeth Ko, M.D. & Eve Glazier, M.D.

### PLANT-BASED MILKS MAKE GREAT SUBSTITUTE FOR COW'S MILK

Dear Doctors: You recently mentioned you steer your patients away from cow's milk. I know some people think it's bad for you, but could you please explain? Is it the fat in milk that people think makes it unhealthy, or is it the milk itself? I read that yogurt is OK. Why would that be different? Dear Reader: We have been shifting to a plant-forward approach in all areas of nutrition in our own practices. This is due to the growing awareness of the environmental impacts of dairy and meat production, and also the range of potential health issues associated with both of those food groups. When it comes to cow's milk, it can cause digestive problems, including gas, bloating, stomach pain and diarrhea. Cow's milk is also linked to an increased likelihood of developing acne, as well as flares of some inflammatory skin conditions, such as eczema. The digestive issues related to cow's milk are caused by an inability to properly digest lactose, the sugar molecule that occurs naturally in the milk of mammals. Known as lactose intolerance, or lactose malab-

sorption, it is estimated to affect more than 65% of adults. Interestingly, many people who can't tolerate cow's milk have no problem with yogurt. This is due to the presence of live cultures, which help break down lactose. The live cultures in yogurt and similar fermented dairy products, such as kefir, are also beneficial to the health and diversity of the gut microbiome. Another factor in the discussion of dairy products is saturated fat, which is present in varying amounts in skim, low-fat and whole milks. Although this was once unilaterally considered unhealthy, a more nuanced view is evolving. Newer research suggests that whole milk, which is high in omega-3 fatty acids, may reduce the risk of developing metabolic syndrome. It may also help protect against Type 2 diabetes. On the negative side, drinking whole milk can lead to increases in blood cholesterol levels. Bottom line -- more research and more data crunching are needed before this particular topic gets resolved. And this brings us back to

plant-based milks. We have come a long way from the days when soy milk, which you had to seek out in a specialty market, was the only choice. Today, virtually all major food stores offer a wide selection of plant-based milks made from almonds, oats, cashews, macadamia nuts, coconut and our old friend, the soybean. These forms of milk are typically lower in calories than dairy milk, and they do not contain saturated fat. The trade-off is that they are also lower in protein, calcium and potassium than cow's milk. Some also contain added sugars, flavorings, emulsifiers and other additives. That makes it important to carefully read the ingredients label, as well as the nutritional information, before settling on a product. Although plant-based milks are now our preferred option, we have nothing against cow's milk. Some of our patients have a strong preference for animal milks, which we understand. The goal is for the daily serving of one to two cups of milk or yogurt to help meet each person's unique nutritional needs.

Eve Glazier, M.D., MBA, is an internist and associate professor of medicine at UCLA Health.

Elizabeth Ko, M.D., is an internist and assistant professor of medicine at UCLA Health.
